# How to Log in to OSAPS

Ohio's SACWIS Alleged Perpetrator Search (OSAPS)

What is OSAPS?

The State of Ohio provides a user-friendly platform called the Ohio SACWIS AP Search (OSAPS) that will return results for:
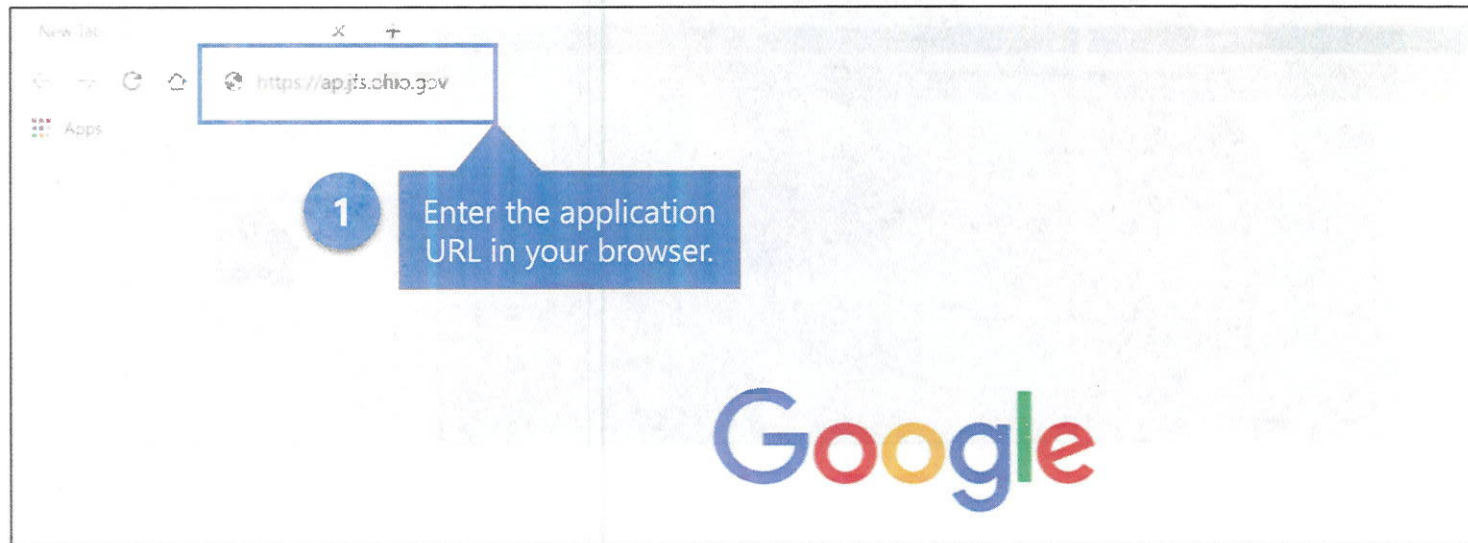

➢ Employees of out-of-state, children services agencies seeking Ohio child abuse or neglect information to assist with an active child protective services case, or for use in approving individuals for foster parenting and/or adoptions.

➢ Employees or prospective employees seeking to provide child welfare-related employment condition verifications. (*Note: This does not apply to current and prospective child care providers.*)

➢ Individuals who want to confirm whether they have been named as an alleged perpetrator in a report of abuse or neglect in Ohio.
